

Fishing Communities and fleets have been devastated, and will need your help to rebuild.

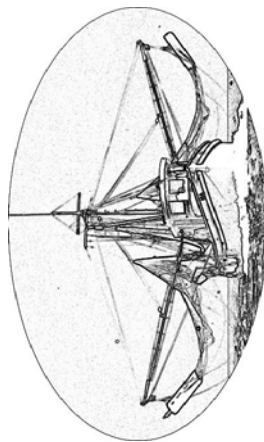

AFIRM will work with fishing organizations and government entities to identify how to use your donation to help get fishing communities back fishing.

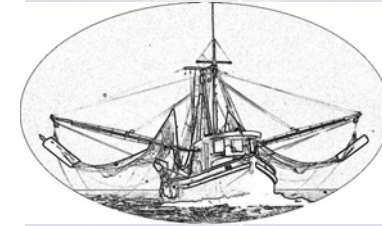

The scale of the overall project is huge but every donation will help.  
***YOU CAN HELP BY DONATING TODAY***

First Bank Alaska

# SHOW YOUR SUPPORT - DONATE TODAY

**AFIRM** "As an industry we are one of the most competitive around, but there is an unspoken code among fisherman that whenever one of us is in need it's everyone's responsibility to help."

-Mark Vinsel, AFIRM Secretary/Treasurer & Executive Director, United Fishermen of Alaska.

*Alaska's fishing Industry supports fishing communities that suffered the effects of the earthquake in Japan.*

The affected communities, governments, businesses and fishing organizations will be considering the long term plans for rebuilding the local fishing industry. AFIRM will seek their guidance in how best to apply our donations.

AFIRM will also seek assets available within the Alaska seafood industry to multiply the value of your contribution, such as we were able to do with the donation of a Marine Travelift by the City of Valdez, and Icemaking equipment donated by Aleutian Spray Fisheries in AFIRM's work in the Gulf of Mexico relief efforts.

AFIRM delivered this Marine Travelift donated by the City of Valdez to Plaquemines Parish, Louisiana to move thousands of stranded fishing boats to the water. *Japan will also need your help.*

The rebuilding effort for fishing fleets will follow after the restoration of basic infrastructure for affected communities, still in the planning stage. For this reason AFIRM is focusing our efforts on fundraising through 2011.
